Cobb Misses Old Familiar Voices and Attends Funeral Services for the Dead Boomlets.

EXCLUSIVE DISPATCH.

SAN FRANCISCO, June 30.—This day was devoted to St. Larynx, chief patron saint of North American politics. In his honor the unclarified Democracy conducted the customary rites and ceremonies.

Nearly everybody who had a speech in his system—and who, indeed, did not have—was given opportunity to run it off before it began to turn on him.

Not only was this in accord with the traditional ethical code of a national convention, but it embodied a sanitary side as well. Like the Mosaic laws, it had a background of hygienic sanity behind its more ritualistic aspects.

You take a professional orator and you let him chum his soul brim full of eloquence and—in that state you fetch him clear across a wide continent in the middle of summer and along about the middle of the week you just naturally must let him out his voice so you run grave risk of having on your hands a malignant case of auto-fermentation, complicated with acute nervous disappointment.

MORN OF DELIVERANCE. Such a person is liable to get caught out in a thunder shower and clatter. Indeed, even on this rainless coast, some of the corn-fed Cincos were already beginning to go sour when this morn of deliverance dawned.

Preliminary runners on the day's devotional exercises gave promise of a rich feast for those who loved the song of the human voice uplifted in rhetorical outpourings. The sound as tentatively sketched called not only for words of wisdom and statesmanship from veteran sages who led the party in the days of yore, but also for brief remarks from some of the newly-admitted female councillors or, as the saying goes, such hot chicks.

The gallin is no longer the most common visible emblem of a shirt-sleeved Democracy. The dress shield has come into its own at last, and the responder walks hand in hand with the blouse that buttons down the back.

It was also reported in advance of the services that several newly-discovered and previously-undiscovered young mothers and sisters would be given a chance to mount the rostrum and garble the English language forth upon the convention altars. But personally I felt that I must continually yield the floor, allegiance to the dependable standbys of past conventions.

GRAVES OLD VOICES. For example, I craved again to harken to Ham Lewis, the human genius of American politics. Unless I might watch Old Faithful spout I felt that the proceedings would lack a note-hallowed and

PARIS, June 30.—In the maze of falsehood, trickery and plotting which forms the atmosphere of the Russian government office, one looks almost in vain for truth.

The Communist party controls the press, controls public meetings, controls conversations, through its innumerable agents, and even tries to control the thoughts of its people. But the Russian nation and the Russian workmen, held down by an iron dictatorship for more than two and half years, are beginning to think for themselves again, and they are thinking in terms of armed revolution.

The discontent which filled the hearts of the middle classes, the landlords and the merchants has spread. Now even the staunch supporters of communism are beginning to ask themselves: "Is this the society for which we made our revolution?"

Especially is the opposition to the government growing among the peasants. It has been steadily increasing since the fall of Kolchak and by the end of summer it may have reached the white heat point. The rejection of Reed left local Democrats stunned. They scarcely comprehended the news. To all looked the defeat of the party in the State.

"This is the widest crack ever opened in the State," a Democratic leader said. "It will be avenged, and it will cost us the State ticket to do it. It will not interfere with our plans for the country ticket, but the State certainly will be affected, and we run the risk of having on our hands a malignant case of auto-fermentation, complicated with acute nervous disappointment."

LENINE GIVES IMPETUS. LENINE himself gave the real impetus toward unity, when in the third conference of the trades unions at Moscow, he outlined in general terms the policies which would follow if the Communist party when military operations threatening Moscow were finished.

"Not only must capitalism be overthrown, but our class position between the peasants and the industrial workers must be destroyed," LENINE said. "The peasants cannot fail to acknowledge that their fate is bound up with the industrial workers."

Even the industrial workers, however, who are in a class position between the peasants and the industrial workers must be destroyed," LENINE said. "The peasants cannot fail to acknowledge that their fate is bound up with the industrial workers."

REPUBLICANS SEE GAIN. Republican leaders considered the crucifixion of Reed a move of sheer foolhardiness on the part of the Wilson-led machine. They estimate that approximately four-fifths of the Jackson county Democrats would vote with the Republicans on the State ticket.

The activities of Mrs. W. W. Martin, delegate from Cape Girardeau, against Senator Reed, incensed a majority of the women Democrats in Kansas City. This attitude is due to the fact that Mrs. Martin represents a district that is strongly Republican and asserted that she would not be able to get up her party in the affair of the Fifth District.

Scathing Attack is Made on the Radical Elements of the Nation.

BRYAN GRINDS AX FOR WETS.

Peerless One Prepares to Make Kindling of Plank.

Time Element in Demonstrations Overdone.

Palmer Forces Overlook an Opportunity.

The not of our party, not of our following. Our leaders eliminated them in the lefty speech and in their duties. His candidacy is not polluted by their presence or by the influence of their support. We admiring him for his virtue, but not Mr. Chairman, how we revere and how we love him because his enemies are the enemies of our government.

ATTACK APPLAUSED.

The speech was loudly applauded as sentence after sentence thundered from the speaker's throat. But at this point the radicals among the delegates began to squirm. There are radicals among the miners and coal miners in the convention who have been pledged to fight to the death against Palmer. Two delegations from Montana jumped to their feet and began to shout protest at Biglow.

Instantly 200 delegates were on their feet demanding that the speaker be thrown out. There was cheering for Palmer, louder than that received by any other man except Wilson himself, swept the convention. The radicals in the convention were only lukewarm for Palmer.

Forced by the interruption Biglow gave a further demonstration to the radicals and Reds, and he was cheered roundly whenever he spoke.

The Palmer men had been strong enough or clever enough to force a ballot this afternoon, their might have won the nomination on the loyalty issue. That interruption cost McAdoo votes, for the radicals in the convention are all pledged to the Crown Prince.

After that speech of Biglow's the convention was adjourned and adjourned again. The radicals seemed tame in comparison.

PADRES WELL ATTENDED.

There was nothing technically wrong with the speech nominating Cox. But it came while the delegates were still astrill by the patriotic fervor of the preceding hour, and there was nothing in his speech to make the delegates forget the right of the radicals and the Reds.

Some of the Palmer enthusiasm was lost, however, by trying to drag out the nomination for half an hour. That thing of half-hour demonstrations has been worked to death. It's nearly all professional stuff.

Six States, three territories and about three hundred delegations and alternates met in the Palmer procession about the hall. Cox had as many State banners, but fewer delegates in the procession. The other parties did not have any.

When Mr. Wilson of Massachusetts stepped out into the little roped areas, that looks very much like a diminutive prize-ring, to accept the nomination, the voices of Owen and the band struck up "You Great Big Beautiful Doll."

That bit of good-natured levity symbolized the attitude of the delegates toward the women delegates. They do not, cannot, will not take them seriously. They are lambs to be led by a big-goat leader.

It's the votes, not the women, that count. The women might as well be a polite homage; but it is not followed. Women in Democratic politics still are great big beautiful dolls.

ADDRESS BRILLIANT.

John G. Crosby, of Connecticut, carried off the oratorical honors of the convention in his really brilliant address nominating Homer S. Cummings.

Crosby is a master of pulpit eloquence and in a convention where the religious element dominates he and his friends will be the ones to address a sound a bit artificial "smell of the lamp," as the critics of the last generation aptly said.

But it went across the footlights with a bang.

He jugged adjectives with the agility of a sleight-of-hand performer, never breaking a plate.

Crosby prepared the ground for a landslide of Cummings if the nomination of the Crown Prince should be blocked.

When the Rev. Burris Jenkins rose and gave an unswerving defense of McAdoo above half the delegates rose to their feet and cheered. They seemed anxious to be counted and kept their eyes fixed on the section of the Convention where other high Federal officials were sitting.

There was an indiscriminate parade in which about 800 delegates and alternates took part. But the delegates remained in their seats. There were not as many in line as paraded for Clark at Baltimore in 1912.

The most important of the Valera Irish plank has already been made to the radical laborites in the platform. Gompers and his associates are far from satisfied.

Edwards was nominated and that was all. There was no special demonstration. I reported several days

SAN FRANCISCO, June 30.—[By the Associated Press.] During one of the nominating speeches today Senator Robinson called Mrs. George Bass to take the chair and there was a roar of cheering as the delegates saw a woman for the first time in the country's political history holding the gavel over the national convention of a big party.

There was more handclapping for Mrs. Bass, who is chairman of the women's committee of the national committee, when she came to the front of the stage at the conclusion of the speech and pounded for order.

MASTER CONTROL.

When you talk in other years about bussed conventions just remember that the delegates to this convention have so far been under the most perfect control of the House that they have not dared to speak to the railroads, the Irish planes or the Eighteenth Amendment. One might think that they are under the control of the hypnotist. Today they marched and sang and danced. But hidden far away in a committee room nine tumultuous demonstrators in an auditorium at San Francisco. All was quiet around the grounds, while the house itself was in darkness.

But they know that if they hold the gavel to the single issue of the League of Nations they will rouse a resentment that will keep McAdoo from getting two-thirds of the nomination.

Ultimatum have been delivered to them by Bryan, Gompers and De Valera. From their committee room windows they sighted perhaps the zenith of political waters. Tomorrow the torpedoes will be dropped.

The McAdoo home said that from what he could observe Mr. McAdoo had received no information from the committee hall and that when he retired shortly after 10:30 o'clock he apparently was unaware that his friends and admirers had placed his name before the convention.

Employees at the McAdoo home said that from what he could observe Mr. McAdoo had received no information from the committee hall and that when he retired shortly after 10:30 o'clock he apparently was unaware that his friends and admirers had placed his name before the convention.

The demonstration, which swept from the McAdoo home to the office of W. Bourke Cockran, was not accounted wholly for Smith's nomination. Nevertheless, the members present were in a very happy and friendly mood toward the New York Governor and there were possibilities of his being nominated when the party leaders decided to make an effort to beat McAdoo.

None of the old-line insiders made any effort tonight to conceal his concern at the jump in the McAdoo boom or to deny that it was loaded with threatening possibilities from their viewpoint.

The night after the polling day at the convention hall, far from being spent in rest, saw much planning and rounding up of forces.

Some old-timers had agreed that the men so frequently made on the convention floor as a joke at the Republicans that the Democratic candidate "would not be

SACRAMENTO, June 30.—Receipts for the registration of motor vehicles in California in the first six months of this year have for the first time gone over the \$4,000,000 mark. The receipts up to the close of today's business, according to Charles A. Chaney, superintendent of the motor vehicle department, were \$5,002,792.25. The receipts for the first half of 1919 were \$3,984,713.89. This shows a gain of \$117,078.56. Mr. Chaney's report shows there were 77,282 motor vehicles of all kinds registered in the State. This includes the United States cars and motorcars, those exempt from taxation and those used in the public service.

The privately-owned automobiles registered in the first six months of 1919 total \$4,757. Further figures are: Motorcycles, 17,000; trucks, 20,115; automobiles, 44,429; automobile dealers, 2065; motorcycle dealers, 166.

The cars registered which do not pay fees include the ones entitled to exemptions.

A landslide for Wilson will always be threatened. The delegates have adulated him and cheered his name until they easily be stamped into oblivion. The wets are 10% to 1 over placed to the radical laborites who would be the choice of the convention.

If Palmer were not a Cabinet officer he could outdo Wilson. McAdoo might win. But I figure that his administration handicap is too heavy. Unless the convention goes over into next week it will not be dark horse.

DEMOCRACY'S OLD GUARD TURNS TO CHAMP CLARK.

Frantic Efforts to Turn Tide Against McAdoo Follows Demonstration in the Convention Hall.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, June 30.—Seemingly in agreement that William Gibbs McAdoo has the inside track on the Democratic Presidential nomination tonight, attempts were being made within the inner circle of old-line Democratic party leaders to prevent his selection by the convention. The plan includes prominent consideration of Champ Clark, former Speaker of the House of Representatives, as a candidate.

Bryan acknowledged veto power over any candidate through the operation of the rule which requires two-thirds of the delegates for a nomination, made his support to the plan a factor sought by its managers. Conferences among old-line leaders were going on actively immediately after today's session of the convention, and they made it plain in their private expressions that they were going to any possible lengths to beat McAdoo.

It was understood that efforts were being made to get in touch with Clark to learn if he would accept the nomination if tendered, and that among them whom the convention had no hope of getting its support is Bryan, who encompassed the defeat of Clark at Baltimore in 1912 after a majority had voted for him and from the nomination of Woodrow Wilson.

MAJOR LEAGUE RESULTS.

DODGERS GRAB A PAIR.

(BY A. P. NIGHT WIRE.)
NEW YORK, June 28.—Brooklyn won both games of a double-header from the Giants. In the first game Mitchell held the Giants safely throughout while Wheat's hitting flared largely in Brooklyn's runs. The Giants did not score in the second game until the ninth. The score:

MOROSCO PROJECTS.

“HUMMING BIRD” WILD IN-
CLUDE DIX IN CAST.

By Grace Kingsley.

It's going to look like old home week at the Morosco and Little theaters pretty soon when some of Los Angeles' favorite players return. Some highly interesting announcements were given out by the Morosco office yesterday, including the fact that Mr. Morosco is about to put on the Little Theater, in conjunction with the Egan, as co-producer, a new play, entitled “The Humming Bird,” by Maude Fulton, author of “The Brat.” Miss Fulton will herself play the leading role as she did in “The Brat.”

As prophesied in this column yesterday, Richard Dix, former favorite at the Morosco, is sure to have leading roles in various new Morosco productions, including “The Humming Bird.” Dix has had a successful season during a part of the time in a leading role supporting Walker Whiteside in one of the latter's dramas.

Another Los Angeles player who was formerly a great favorite here and who returns within a week, is Grace Valentine, remembered for her ingenue role in “Lombardi.” She will have a leading part in “The Humming Bird.” Bert Clark, famous in vaudeville, is another well-known player who has been engaged for the new Fulton production.

Joe Fair, formerly with the original production of “The Dum-Dum” in New York, is a player who will do leads in new Morosco productions.

“The Humming Bird” will open at the Little Theater July 12 and Maude Fulton is expected here within a day or two to help supervise.

With First National.

Complete details concerning the affiliation between Allen Holubar, his star, Dorothy Phillips, Al Kaufman, the former Famous Players-Lasky executive, who is sponsoring this first independent production, and the Associated First National Exhibitors' Circuit were given out by the parties for the first time yesterday.

Ever since Holubar and Miss Phillips severed their relations with Universal there has been much speculation as to where they would light, and when they started work independently. At Kaufman's as the financial genius, there was still much wondering as to which releasing organization would offer their services, production or exhibition, to the fair. Recently, however, the race has appeared close between the Zukor interests and First National. The fact that Kaufman is a brother-in-law of the Paramount-Artcraft chief of casting, Al Kaufman, will be believed to be the reason that the Holubar-Phillips super-special would be released under their banner, but apparently First National has the upper hand in this connection. Wherefore the Holubar feature is to go to that organization.

The new Holubar picture is to be super, and when it is ready for market will be made available for the making. The title is not divulged at this time, but is expected to be ready for release the middle of October. The cost of the production will be a quarter of a million dollars.

The story is said to represent the biggest amount of money ever expended on a picture, in addition to the price originally paid. It represents nine weeks' salary outlay for a star, plus expenses.

As soon as Ruth Hobart completes her present black-and-white drama for Pathé, which will be in a week or so, that lively young lady is going to take a vacation. She expects to visit Catalina, and when from the wild serial stunts she has been doing, she will take a journey to Tia Juana, Mexico, of the excitement.

Colleen Moore, playing one of the principal roles in “So Long Letty,” is to have a rival for screen hours at the end of the month. Ruth Hobart, recently returned home from Mervynsburg Academy, is to devote her summer vacation to acting before the camera. He, too, will appear in “So Long Letty,” in a minor role.

Two Aoki Returns.

After a four months' absence in her native Japan, Tsuru Aoki, Japanese star, returned to her home and to her husband, Sessue Hayakawa, Friday. Mr. Hayakawa went to San Francisco to meet her.

This is Miss Aoki's first trip to Japan since she came to this country.

She was 8 years old then. She was educated here, and took special training at Stanford University.

She visited her relatives in Japan, including her famous aunt, the actress Sada Tacco, who was the first Japanese woman to make a stage appearance.

Miss Aoki's roles having previously been played by men, Miss Aoki traveled throughout the Japanese islands, and probably have an interesting story to tell.

Two offers have been made to the star, one to sign with a big company, the other to form her own organization, and it is not known which she will accept.

Bessie Barriscale to Celebrate.

Celebrating the Fourth of July by commencing a new picture is what Bessie Barriscale, popular Robertson-Cole star, will do.

The new film will be a western, to be directed by Emerson Hough.

Miss Barriscale the best vehicle she has had in some time, but off course her first dramatic picture. Paul Scardon is to direct, and the company will go to San Francisco, Peacock and Centerville for location shooting.

The cast supporting Miss Barriscale will be well known, including Joseph Kligur, Margaret de la Motte, Alan Ladd, John Arnald, Arnold Gregg, Evelyn Selfy, Wilbur Higby and Grace Gordon.

Miss Barriscale has just moved into her beautiful new home in the west end of town. “Isn't it just the worst luck,” she exclaims, “after waiting for the completion of my new house for several months, to have to go away and leave it for a whole month?”

Grace Darmond Resumes.

Grace Darmond, having recovered from the ill effects of an ulcerated tooth, which put her in bed for several days, began work yesterday in the Christie visualization of “So Long, Letty.”

Al Jolson Here.

The reason which led Al Jolson to the West, according to his own statement made to friends here, was the Christie visualization of “So

Long, Letty.”

DON WAR PAINT.

INDIANS PLAN AN INVASION OF CAMERALAND.

By Edwin Schallert.

Make way for the tom-tom, the snake dance and the war paint! The red man will buy the pipe of peace, the hatchet and the tomahawk, and start tomahawking his way to a place before the camera. Only, to be sure, it will all be done in a more middle way than indicated.

A primitive scene, directed by Indians, with aboriginal settings as a background, and a story of primitive times will be the novel entertainment of the Indians of Prince William Redfeather, known throughout the country as the interpreter of Indian music, reach maturity. She is the leader of the ensemble, and she is known for her seeking hacking among her own people, who have grown affluent in the past few years from revenue derived from royalties on oil lands.

Reverend Sherman Coolidge, noted divine of the southern State, is president of the concern, which has offices in New York, Los Angeles, and San Francisco. The Indians are vice-president and John C. Wilcox of Denver is secretary.

The intention is to start work on the Indians in the fall, if the financial arrangements are made by that time, and it is understood that they are progressing quite favorably.

The company is to be headed by Charles Wakefield Cadman, who will be engaged to write a score for the picture play, for which task his large experience and deep study of Indian themes will be particularly useful.

It is expected that his score will be ready in time for the picture play, for which task his large experience and deep study of Indian themes will be particularly useful.

cause as forcibly and strikingly than the people were convinced of his fitness, his integrity and his abilities, and that no man deserved greater honor yet to come."

"Of his success, the issue can never be doubted. Not only will his name be great, but her name, too. Not only will her great name stand, but her approval will jubilantly, thunderously echo her approval."

"To you men of the South, of the West, of Democracy, of a glorious past and a bright future, when progress and spirit of loyalty, when war's desolation could stifle, to you men of the broad, bounding West, who have harnessed the latent power of the West, who have made a paradise of plenty out of great deserts, who have made waste, who have played well your part in making this nation the mightiest of the mighty, we appeal to help swell the diners of triumph."

GOOD EXAMPLE.
Myron T. Herrick says that Senator
Harding is just like McKinley. That ought
to be enough for the rest of us. President
McKinley was Ohio's best-beloved son and
the whole nation had come to respect and
love him before his untimely end.

THE REENT LANDLORDS.
A New York court held that a 25 per
cent increase of rent was not profiteering.
A landlord who demanded only a raise of
25 per cent would be considered merely a
poker to most folks. The average landlord
wanted to start out with a boost of about
50 per cent and work up.

DING AROUND THE BOSTON.
Millions of pounds of sugar are being
shipped from Canada at Detroit and Chi-
cago. This sugar came from England and
England got it from Cuba. If the United
States had bought it from Cuba in the first
place there would have been no 3000-mile
haul, no double duties and no triple profits
to contend with. Leave it to Hoover.

PROFITEERING.
Gov. Coolidge is reported as grieving
because his landlord had raised the rent of
his home at Northampton from \$25 to \$34
a month. It is pretty tough, and when he
gets to Washington he will be confronted
by the further tragedy that an ungrateful
republic does not furnish its Vice-Presi-
dents with residences. He will have to join
an Own-Your-Own-Home Club in self-de-
fense.

SECOND THOUGHT.
Nicholas Murray Butler has made
honorable apology to Gen. Wood's campaign
managers for the harsh words spoken by
him immediately after the Republican con-
vention. The words came from the fatigue
and tedium of that gathering and he ad-
mits that they were unbecoming and un-
warranted. Therefore the incident is closed.
It is safe to lay anything to the frenzy of a
Chicago midsummer.

FOREIGN RELATIONS.
It is mainly a matter of verbiage. The
Republicans want the League with their
reservations and interpretations. The Dem-
ocrats say they have no objection to res-
ervations and interpretations, but they must
not amount to secession or nullification.
The Republicans report that they sign not
at nullification, but insist on justification.
They ought to be able to get together.
What they both want is a League of Nations
on probation with interpretation of res-
olutions. Elihu Root could fix that up in twen-
ty minutes.

IN PASTURES NEW.
Thirty large manufacturing concerns
are reported to have already left Chicago
this year because of labor-management
troubles and numbers of others are casting about
for suitable locations. It is hard to say
where they will go, but wherever it is they
feel that it will be an improvement over
the conditions that confront them every
now and then in the big city. The gospel of
the open shop and home rule is spreading
in Chicago, where the percentage of foreign-
population is proportionately greater than in
almost any other large city in the world.

IN THE NEWS.
A cut in the price of collars is an-
nounced from Troy—the town that put the
white collar into general circulation. It's
going to be so that a man can save more
than one for a quarter. In the process of
giving it to the consumer in the neck
collars had gone up to 80 or 40 cents—collar
that were once sold at three for a quarter.
Now they are to be obtainable at two-bits for singles.
Considering the material that
goes into a collar it would seem that there
was ample profit, at that. There must be
almost a nickel's worth of stuff in Jess Wil-
lard's collar. It is significant that the cut
is too late to help out the June bridegrooms.

THE CITY CLEARENCE.
Politicians are wondering what is going
to happen next at the office of City
Clerk Wilde. The storm clouds had been
gathering there for a long time when, in
May, Dave Carroll, minute clerk of the Council,
quit, and then last week Tom Powell
left after serving the city four years
as deputy city clerk. The heat of feeling
did not exist between Dave and Charley
Wilde, and lack of harmony in the office
was helped along when the City Clerk ap-
pointed Joe Hopper to take Dave's place
and brought Frank Shirley from the Il-
linois office to do the work. Hopper had been
handling. This was a promotion for
Shirley, but Powell's friends felt that it
was a slight to Powell, who had been four
years in the office. Powell denied last
week that his failure to be promoted had
anything to do with his resigning. Now the
men who watch political Sohns at the City
Hall are wondering what Mayor Snyder
will do toward appointing a City Clerk when
Wilde's term expires on January 1. Wilde,
of course, would like to be reappointed and
he has friends who believe his long service
entitles him to reappointment. On the other
hand, some of the Mayor's staunchest
supporters believe that a new City Clerk
would bring harmony into the office and
we are bombing Bob Dominguez, senior
city clerk, for Wilde's place.

THE JAPANESE HAZARD—FAIRNESS VERSUS UNFAIRNESS.

The dangerous initiative measure to be
voted on at the November election which
is urged in this State as a Japanese exclu-
sion act does not, as we read it, go to the
extent of providing for the actual deporta-
tion of the industrious orientals who are
now here, but virtually denies them the re-
sults of their labors. Although they pro-
pose the highest efficiency in farming, this
act would practically forbid them to till the
land.

The Times is sternly opposed to letting
the Japanese get any further control of
California farm lands. That they have
made some of these lands more productive
and more valuable may be true—but that is
not the point. The point is that they are
endangering white supremacy in California
and threaten to overwhelm the Caucasian
race. Their multiplication is alarming. The
question is, shall Californiaans shut their
eyes and submit to being dispossessed of their
heritage? And what is the best preventive?
We cannot resort to violent and extra-
constitutional methods. The Japanese are here
under our flag and are entitled to the pro-
tection of our laws—but their peaceful
invasion must be stopped—halted in a fair
and constitutional manner—for they are doing
harm to our State and our country, more
harm than good. One cannot contemplate
their inroads and what they portend without
a shudder.

One of the leading business men of the
State, who, individually or through corporate
connections, has had extensive business rela-
tions with the Japanese for nearly twenty
years, declares that in that time he has
collected from them over \$5,000,000 and
with never a lawsuit, a dispute or an un-
collected claim in the great volume of
transactions covering that period.

What other racial group or class could
a like statement be made?

So it is that the Japanese question in
California should not be left to those who
have nothing but race or class hatred to
bring to the settlement. There are many
who object to the Jap because his complexion
is different from their own. There are
agitators who claim to speak for organized
labor who would deny the Japanese admis-
sion to our shores for no other reason than
that they never hear the whistle blow at
quitting time. The eight-hour day means
nothing to the hunting lives and they would
have a six-hour day not away on ice
before breakfast. The agitators object to the
Jap because he is an object lesson—not of
the degradation of the Orient, but of the ac-
complishment of sixteen hours of applied
industry every day in the week.

The initiative measure as offered to the
voters of California by petition provides in
effect:

(1.) Absolute prohibition of land ownership
by Japanese.

(2.) Absolute prohibition of leasing lands
to Japanese.

(3.) Prohibition of the American-born
Japanese minor—an American citizen—from
acquiring property through the guardianship
of a parent.

(4.) Prohibition of Japanese having an
interest or owning stock in any company or
corporation owning agricultural lands.

(5.) Confiscation of real property upon
legal showing.

Some of our ablest counsellors hold
the belief that some of these provisions are
in absolute discord with the Constitution of
the United States, yet certain agitators who
have an unreasoning hatred of the oriental
would not hesitate to have the State pass
an unconstitutional measure and embroil
the entire nation in a possible war, merely
to satisfy a private prejudice.

The Japanese Association and George
Shima, one of its leading spokesmen, issue
a statement which offers strong argument
against America approaching the question in
anger and malice. Shima asserts as a truth
that between Americans who deal with the
Japanese and the Japanese who deal with
Americans there is little cause for trouble.

We heard a good deal of panic talk a
few months ago, although well-grounded
financiers with gyroscopic attachment to
their convoluted mental machinery told us
that nothing of the kind was to come to pass,
and argued that so long as the country is
on short rations; so long as labor is
fully employed and so long as the spending
power of the laborer remained unimpaired
there could be no monetary panic.

As the year wore on the wisdom of the
findings grew more and more apparent. The
banks began cutting down on credits; it
became harder to borrow money without a
mighty reason for it; loans were di-
minished as they matured and wildcat
financing was greatly reduced. All this is
good for what all us, and although the
medicine is bitter to some, it contains no
panic precipitate. On the contrary, the ef-
fect is stabilizing. As yet there has been
little reduction in working forces, at least
in the West, and wages are as high as ever.

The year this phase of the readjustment
is completed the slack will have been taken
up and we will be ready for the succeeding
jolts without losing our heads and jamming
the exits.

Some, aside from all this, there is another
and more potent reason why there is to be
no panic with its concomitant of empty
stomachs and safety-deposit boxes; a rea-
son which is more far-reaching, even than
the continuing job and the full-time pay en-
velope. This reason is found in the bal-
ance of trade between the United States
and Europe.

In other words, if this is the land of the
free and the home of the brave it doesn't
prove it when we chase the humble Jap
into the sea with an ax.

There is fairness in this contention, but
it is a Japanese question in the State
and it is a serious one. It should not be
left to the disposal of those who have noth-
ing to contribute to the discussion but an
ingrown hatred of the Japanese because of
their glaring evidence of thrift and industry.

It is a problem for diplomacy and states-
manship and not the selfish judgment of the
politician and the agitator.

The Japanese population of the State is
at the danger mark and the birth rate of
the orientals is formidable when measured
with our own, but persecution should not
be substituted for justice in coping with
the problems that have arisen.

It should not be necessary to go beyond
or outside the American Constitution to con-
trol and regulate the problems arising from
our Japanese immigration.

The Times vigorously reaffirms its posi-
tion that the course of the Japanese stream
must be turned back.

There is a menace, and it must be met.
The noteworthy increase in the Japanese
population since the gentlemen's agree-
ment was entered into and the prodigious
birth rate of the race as measured
against our own will amply justify
the editorial attitude taken by The Times
months ago—and this without regard to
private, personal or corporate convenience
or interest. In opposing the further ad-
mission of Japanese to this country to meet
existing demands for labor The Times merely
observes fundamental principles. Ulti-
mately all questions pertaining to the mix-
ing of the oriental and Caucasian races,
either socially, politically or economically,
either California and the United States shall
have clearly defined our immigration laws
and solved the acute angles of the prob-
lems as far as this country is concerned—

PETITIONAL HYSTERICS.

BY ADNA WHITAKER.

"Have you signed this petition, lady?"

It was nice of her to call me "lady," my family having so often thrown doubts on the matter, so, although I was in a hurry, I replied politely to the effect that I did not care to.

It is a mistake to reply politely.

It promptly involves a sharp argument. The initiative petition cultured me with scorn, securely but iron-holed me and proceeded to relate a narrative replete with gross

details of torture and blood-curdling atrocities.

I, it appeared, was a ruthless barbarian if I did not accept the lady's statements

against the vicious practices

by our leading physicians from the

East, most unworthy motives.

My felt horribly conspicuous as her

voice rose in hysterical indignation.

With remarkably poor judgment I

dares to voice the views of the op-

position. Talk about atrocities—

she was ready then and there to

practise them all on me. I finally

conserved my valuable signature,

but departed under a shower of in-

vective and insult.

"Have you signed this petition, dearie?"

I had walked perhaps a block fur-

ther. I resented the familiarity of

that "lady." I shook my head

with hauteur and endeavored to pro-

ceed. But, oh, dear, no. The peti-

tion was there under my nose and

a calligrapher dame stood by the

table.

"It is a coincidence," I said.

And I read my inscription on the

bottom of the petition.

"I am a member of the

League of Nations," I said.

"I am a member of the

Commerce Chamber Speakers Review Benefits Brought by Open Shop.

(Continued from First Page.)

Wilsonian Democracy has not been at San Francisco.

The Democrats chose Woodrow Wilson, but they have not nominated him.

Thought we were to escape the "Crown Prince" stuff in this country?

The eyes of the Democratic men are "not," no matter who the candidate.

Just as we feared, those who are going to be the political death of A. Mitchell Palmer yet.

The Reds are now trying to capture Italy. Why not choke them death with a dose of spaghetti?

That large, moon-faced man leading the Bourbon team in the battle is William Jennings Bryan.

The war is certainly over. The biennial checker championship tournament will be held at Cedar Point, Ohio, in August.

The country should stand one more "cross of gold and crown of thorns" speech, but we doubt whether the Reds could.

Jimmy Cox says he is not too permanently fit to be Vice-President. Why should he worry? He will not be called on.

There is this to be said to the credit of Candidate McAuliffe—he is not in San Francisco "legging" for the nomination.

There are but 223,000 people in the entire State of Delaware. Why that commonwealth is almost as small as San Francisco.

Hope the Los Angeles delegation will be able to discern the band wagon in time. There are some fifty leaders in that crowd.

It's a coincidence. The fifty-first birthday of Senator Harding will occur on the day of his election to the Presidency, November 1.

The first official meeting of the League of Nations will be held at Geneva in November—just in time for the Allied powers to cable their sympathy to Woodrow Wilson.

Secretary Meredith attacks the members of Congress. Other Sour leaders take the other side and belittle the large appropriations it is simply impossible to please that crowd.

Senator Harding may not be the material of which autocrats are made, but then we may possibly have had about all of the autocrats we need for a little while. He is certain to give us a government of wise judgment.

"But your candidate I cannot be," so Horatio Seymour declared to the New York National Democratic Convention in 1888. But he changed his mind and it required months to count the majority that U. S. Grant piled up against him.

Frantic efforts are being made to get the thirty-sixth State to ratify the equal suffrage amendment to the Constitution. Wisconsin led off the first State to do so: Washington is the last. The first was June 10, 1919; the last March 23, 1920.

This is the day for the political prognosticators to sit in their offices on the probable result in San Francisco. Tomorrow may be too late. There is nothing more uncertain than guessing on the balloting in a national convention of either party.

The result of the Presidential election will be determined at the "battle of millions" of votes stretched all over this land and not by the will of the people. Tomorrow may be too late. There is nothing more uncertain than guessing on the balloting in a national convention of either party.

After the "battle of millions" which is called to meet in Chicago July 10, has constructed a platform for its proposed new party which shall be variegated enough to satisfy all the factions within its ranks, it will be for the old parties and the country at large to laugh.

No matter how the Presidential election turns, business promises to thrive throughout the year. It used to be that Presidential campaigns meant unsettled industrial affairs. But the effect has changed in recent years. With the nomination of McKinley in 1896 business maintained its speed and it has been going right over since.

It may be Woodrow. In that case the similar words found in St. Matthew will apply, showing how a certain heir was treated mighty rough once upon a time. The parable of the householder who sent his son to collect the rent will be recalled. When the householder saw the son they said among themselves: "This is the heir, let us kill him and let us seize on his inheritance." St. Adoo as the heir of President Wilson is due for an awful beating if he is unlucky enough to get the nomination.

L'ENNU. They boarded the car heavily. Up in front he sagged from a strap; he left the car to him as could be. Clung to the railing at the back. The car clanged between. Her rich-skin-over-dead-dish; her sashless-disillusioned-muscle. Thirty, maybe forty, years and they carried no parcels! Hard white diamonds glared from their empty hands. Her eyes off her face. He left the car a block farther on. Not a word or passing glance of interest all the way. They had looked without seeing so long.

They were going home to the same house. To eat at the same table. They were married!!!

OTHERS SPEAK. George Tyrrell and J. H. Bogue, of the First National Bank of Pedro, also spoke, the latter paying tribute to the excellent work and business spirit at the harbor.

More than 200 persons attended the meeting. The members of the Council, headed by Acting Commissioner, with their wives, the City officials, and with prominent men of Los Angeles and the Chamber of Commerce, extended hearty congratulations, best wishes and a sincere offer of cooperation to the citizens of Puerto Vallarta in their industrial and civic freedom. The American shop movement is going forward with a mighty momentum that cannot be stopped, denied or derailed. SEEN, MAKES GETAWAY. Man Wanted for Kidnapping Located at Porterville; Goes to Fresno.

Thirteen-year-old Elizabeth Mae was reported seen in Porterville, yesterday, in the company of Clyde M. Bissell, the local linotype operator, who is accused of kidnapping her, according to a telegram from the constable in the northern city to the Sheriff's office here last night. A wire was immediately sent to the Sheriff, who sent a constable, ordering him to hold the couple. The Sheriff's office then was informed by a reply wire that the suspect had left Porterville.

A regular fact in connection with the open-shop campaign is the

that the Chamber of Commerce to year from the time it threw

the vote of unionism, occupies

the office of the Board of Public Service Commissioners.

The special commissioners also

suggested yesterday to the Council

a charter amendment which if

enacted will wipe out that provision

which makes the City Engineers

an ex-officio Harbor Engineer. The provision compels the board to recognize City Engineers as Harbor Engineers and to handle harbor engineering in the same manner as the Harbor Engineer did.

Something Different Every Day

Look for the Clearance Signs in Every Department

The July Clearance is really a series of events. A sale of such magnitude that one "ad," no matter how large, could never present all the savings to you. So we have arranged a series of events. "Something Different Every Day in July!"—is the slogan of this sale. Watch the daily newspapers for these events as the sale proceeds, and watch our windows for a review of the Clearance Values.

ATTORNEY-C
PRESENT

SAN FRANCISCO, June 29—As a "new Navarre" in the name of law, his shield of justice," Atty. Gen. A. Michaelian was formally nominated for the Democratic Presidential nomination by John H. Bigelow, chairman of the party. "True Americanism must guard," Mr. Bigelow said. "Within and without, and in every corner of the country, our great country has formed their prodigies of external glory." But the most important of these conquests was made by their mightiest menaces to the democracy was subdued. The tyrants of France and Italy were conquered, but the forces of the people were not. They still rear the hydra of anarchy and revolution. So far in the silences of the night, in the darkness of secrecy, they have been able to spread their pernicious trinities. They prey upon the long established forms of government.

"The forces of the people are not mere fancy. They are the ardent advocates of socialism; and the democratic Pennsylvania has commanded, present to you, his candidacy.

"HAR SHAW, LEADER.—In the action in which he has passed in which he has shown all of the leadership of the present press of the Republican party, invisible power that dominant recent convention at Chicago, sampled every leader of party, and secured his nomination that entered into the convention that rescued Democracy from her enemies, leaders and from her enemies. It was he that organized and directed the movement of Republican corruption and regenerated his party so that now it may hold its head in the pursuit of those ideals and pure purposes, the pride of the nation's democracy.

"When finally the people nation intrusted the chart of power to democracy, plain and simple, to charge of legislative halls, it was he that stood at the door of Congress and demanded that the members of the party of abolition, abolished nonism and opened the door of the Constitution to the people who were upon our path.

"When, within four years, he turned to arms to indicate his sovereignty, to represent repeated insults to his country, it was he that by fear of his administration of his troops, directed the march of our troops \$1,000,000,000 and directed power against the foe from which was taken.

SEASONABLE BEAUTY AID

We find you can bring out the beauty of your hair to its very best advantage by washing it with camphor. It makes a very simple, inexpensive shampoo, which cleanses the hair and scalp thoroughly of all the dandruff, dirt and excess oil, leaving a wonderfully clean, white, some feeling. After its use you will find that the hair dries quickly and evenly, is never streaked in appearance and is always bright, soft and fluffy; in fact, that it looks more abundant than it is, and so soft that arranging it becomes a pleasure. Just use a teaspoonful of camphor, which you can get from any good druggist's, dissolve it in a cup of hot water; this makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. —[Advertisement.]

NEBRASKA WANTS HITCHCOCK AT WHEEL OF SHIP OF STATE

(BY A. P. NIGHT WIRE)

SAN FRANCISCO, June 29.—The Democratic party must stand or fall upon the record made by the Wilson administration, former Gov. Shallenberger of Nebraska told the national convention today in nominating as a candidate for the Presidential nomination U. S. Senator Gilbert M. Hitchcock of Nebraska.

"We have no other political asset," declared Mr. Shallenberger.

"Without it we are bankrupt.

"The administration waged a world war and won it gloriously, and when the President signed the peace treaty at Paris, America had stepped into the leadership of the world.

"American democracy was triumphed. Its ideals were accepted as the law of nations.

LOST ALL ACHIEVED.

"But the Republican Senate has fought for us all that the statesmanship of the President achieved and the soldiers won for us upon the field of battle. The world wants peace and believes America will make that peace permanent. There, if anywhere, must democracy triumph.

"Whether the politicians desire it or not, we are going to have a great referendum at the next election, to decide whether the American people are with Woodrow Wilson or with the Republican Senate.

"President Wilson would be the logical leader in the coming campaign, but since another must head the hosts of democracy, Nebraska's needs, as well as a thorough understanding of international affairs.

"I am authorized by the Democrats of Nebraska to present as our candidate, Gilbert M. Hitchcock of Nebraska."

Japanese Chamber of Commerce Sees Disaster Ahead.

Paper Attacks United States for Actions.

Defensive Ways and Means are Discussed.

(BY A. P. NIGHT WIRE)

TOKYO, June 29.—The recent decision of anti-Japanese agitation in California has attracted widespread attention in Japan.

The national convention of Chamber of Commerce has adopted a resolution declaring that the agitation is a threat to the peace of the world and expressing the fear that if it is left unchecked, the interests of Japanese in California, the result of years of toil and labor, will be destroyed.

"This is regrettable for American-Japanese amity," the resolution says. "We must arouse public opinion, raise the voice of justice against anti-Japanese movement, and seek permanent solutions of the questions involved."

ACTION IS PLANNED.

The resolution requests the appointment of a committee of twenty-five, to include members of the Diet, to discuss defensive ways and means.

Virtually all the newspapers agree in expressing the belief that American troops themselves will prevent any injustice.

The Yorozu Chuo, on the other hand, attacks the United States for "militaristically converted ideas of the world's peace."

HIGH SCHOOL METHODS SIMPLY HODGE-PODGE.

STATE COMMISSIONER SCORES SYSTEM BEFORE THE TEACHERS.

(BY A. P. NIGHT WIRE)

BERKELEY, June 29.—Declaring that high schools need vocational courses in household science, agriculture, trades and commerce, which will equal the graduate to business competition, the State Commissioner of Secondary Education, in an address at the second day's session of the California High School Teachers Association, today declared that high school methods are a disgraceful "hodge-podge."

Olney scored the "university dominated curriculum" which controls the high schools, and declared that little or no attention has been paid to the boy and girl who enters the business or industrial world.

Prof. A. C. Olney, University of Texas, declared that the high schools should be the "college of the masses" which would enable the boy and girl the training which would enable them to take their places in the world.

If I cannot locate the cause of 95% of all human ailments. This assertion is worthy of serious consideration of every intelligent person. Especially, it should be vital to every individual with lost and impaired health.

Thomas A. Edison, a great student of health matters, has taught us that "The doctor of the future will not dose us with drugs, but will instruct his patients as to the cause and prevention of all maladies." The chiropractic premise is this—"that the nerves convey the vital energy to every part of the body. These nerves pass out in pairs through openings between each joint of the spine. Through accidental means or otherwise, the spinal bones become misplaced, resulting in a firm 'pressure' upon the nerves, which is the cause of impaired health and depleted organs of the body."

The Supreme Test

of chiropractic lies within the scope of X-Ray photography. Having a picture of your own spine taken, you can study and see for yourself that my statements are correct. If this picture is found incorrect, that spinal misplacement is not found, my offer of \$100.00 will be given. This offer is to any man, woman or child who suffers and desires to get well.

Come and see pictures of other people's spines who have been ill. You'll be convinced. Seeing is knowing. Make your appointment today. X-Ray and fluoroscopic laboratory.

Stronger Than is Usually Thought Necessary

The powerful and enduring body of Goodyear Heavy Tourist Tubes is far thicker than that of ordinary tubes—in some cases as much as twenty per cent.

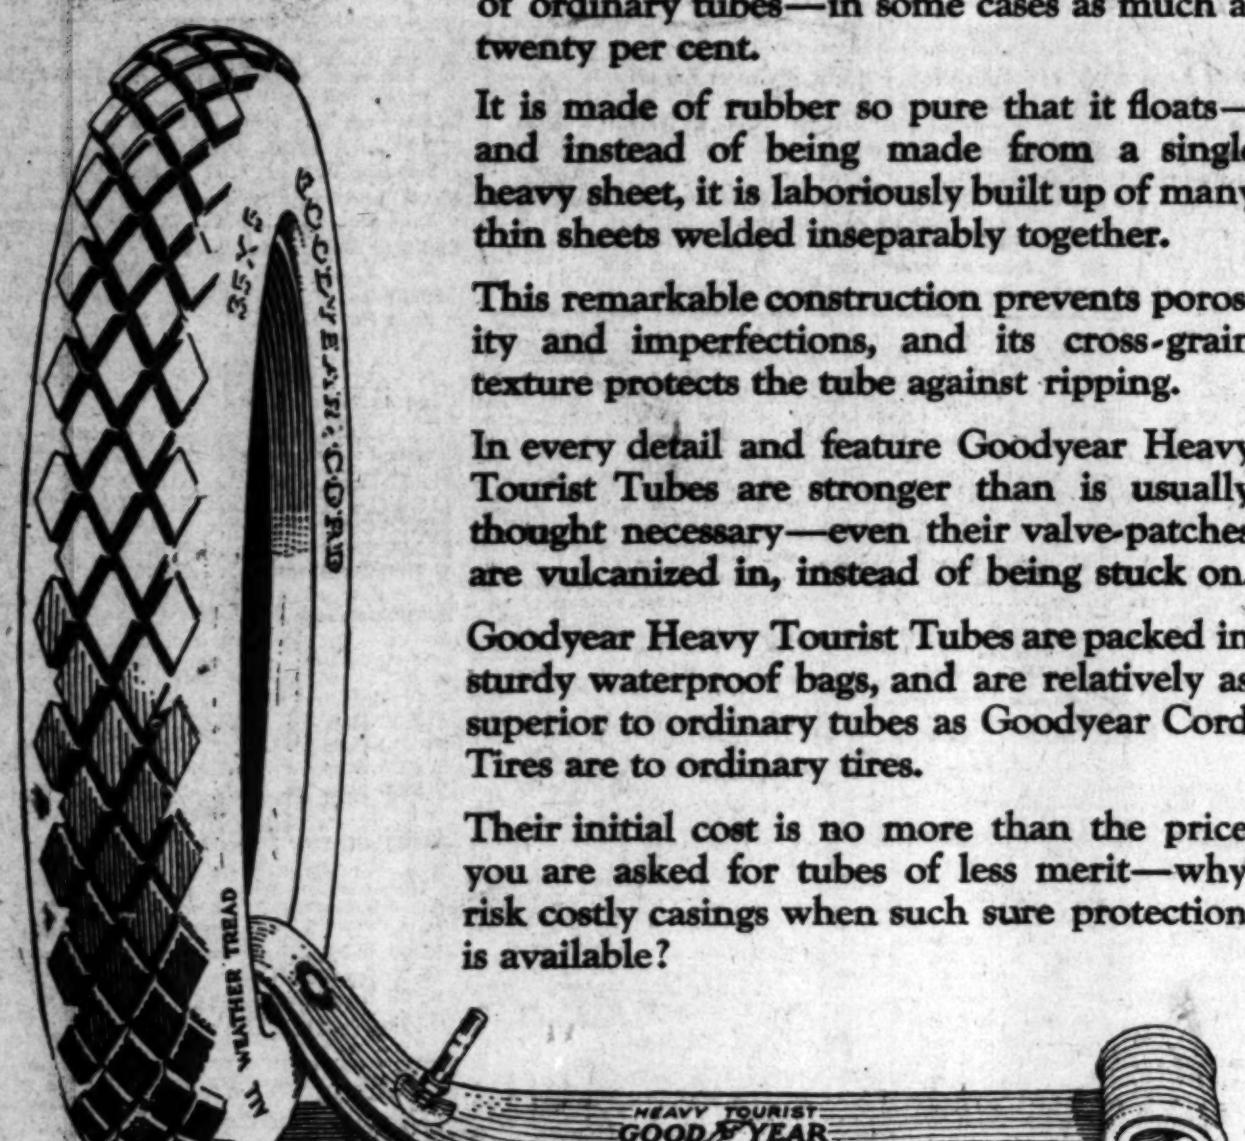

It is made of rubber so pure that it floats—and instead of being made from a single heavy sheet, it is laboriously built up of many thin sheets welded inseparably together.

This remarkable construction prevents porosity and imperfections, and its cross-grain texture protects the tube against ripping.

In every detail and feature Goodyear Heavy Tourist Tubes are stronger than is usually thought necessary—even their valve-patches are vulcanized in, instead of being stuck on.

Goodyear Heavy Tourist Tubes are packed in sturdy waterproof bags, and are relatively as superior to ordinary tubes as Goodyear Cord Tires are to ordinary tires.

Their initial cost is no more than the price you are asked for tubes of less merit—why risk costly casings when such sure protection is available?

OMOIR, SAN FRANCISCO, June 29.—When the roll was

called, Minnesota yielded to

to place Gov. Smith in

The Veteran New

Yorker got a rousing reception

giving Gov. Smith as one

of the chief characters in the

California delegation. Mr.

said: "We have a great

world to spread our

message opportunity for

domination here today a man

of democracy, a man

risen from a peddler's

the Governorship of New

York he never lost a single

friend. He is high or low, as Al

Wilson, the speaker

had held apart "in the

name of greatness."

WILSON POINTED.

Al Smith, he continued, "is

one who could lead us, not

but he has no shoulder with us, along

the lines of opportunity to high

where Woodrow Wilson has

the world."

There was a lot of old-time

oratory in the speech

made a hit with the delegates

in the galleries. They kept an

ear to the speaker, while

and when he said he

had to quit there was a loud

cheer of "no."

Mr. Cochran said, of

the favorite song, reluctantly

if the party did not see fit

for him for the Presidency.

WILSON POINTED.

He continued, "is

one who could lead us, not

but he has no shoulder with us, along

the lines of opportunity to high

where Woodrow Wilson has

the world."

SONGS THEY KNEW.

Several times when things began

to get a little quiet, someone

started another song that everybody

Gov. Smith of New York.

knew and all bets were off again.
"How dry I am, was one of the
tunes that sounded around particular enthusiasm among some of the
delegations.

Senator Robinson finally got or-
der after the tumult had been gotten
over that the roll should be selected at 2
o'clock. Franklin D. Roosevelt, Assistant
Secretary of the Navy, took the
stand, amid another storm of cheering
and the nomination of Gov. Smith.

He got a brash of applause when
he told the delegates that their
nomination would be selected at 2
o'clock in a hotel room.

The nomination also was sec-
onded by Mrs. Lillian R. Eire, of

New York.

Then, a call of the States was

required. The convention had been

in session six hours without a re-
cess, but the delegates apparently

had forgotten that they had missed

their meals.

The demonstration seemed to put every-
one into a good-natured mood.

FOREIGN CAPITALS.

BY CAREY AND ASSOCIATES, PHILADELPHIA.

BELGRADE, June 29.—A report
that the Albanian city of Aviona has
been captured from the Italians by
Albanian insurgents has been re-
ceived by the newspaper Prava in
a dispatch from Uskub, Southern
Serbia, the report adding that the
entire Italian garrison was taken
with the town.

The Albanians carried Aviona by
storm after desperate fighting with
the Italians, the message declares.

THE ALBANIAN MILITARY.

NEW YORK, June 29.—The
New York delegates led in
a brief demonstration after the
speech, while the band played
"Albanian Tambourine."

New York delegates stood on
their chairs and waved small
American flags in cadence with the
band and then there were three
cheers for Al Smith.

ALL JUNE IN.

Senator Roosevelt tried for order,
but the New Yorkers would not sit
down until they had sung "The
Sidewalks of New York," in which
they got both the band and pipe
bands to join in.

The New York and New Jersey
standards were carried around the
hall in an attempt to organize a
parade. Some one took the New
Yorkers across to the New
York delegation, while the crowd
and the band and organ switched to
"Sweet Rosie O'Grady" and
"The Bells of St. Mary's."

The rhythm of the old familiar
songs got the delegates into a mood
for anything, but resulting their
demonstration. A good sized band had got
started and the men marched
around back and forth in lockstep
with just a suggestion of the shini-
ng.

It was a sight many old-timers
said they had never had seen be-
fore. It was regarded as a personal
tribute to Gov. Smith and Bourke
Cochran and there were no suggestions
that it meant a stampede to
the standard of the New York can-
didate.

The interjection of the old songs
also seemed to have the potent in-
fluence of the delegates into demon-
stration of good feeling at the
time when at most political conven-
tions, the lines of antagonism and
animosity between the opposing
candidates are tightening.

The demonstration was on for
twenty minutes when Senator Rob-
inson started out to voters' order.
He had to have his horse.

The fundamental principles of scientific refrigeration involve many problems.

It is generally conceded that the "Bohn Syphon" embodies the advanced scientific principles of efficient refrigeration as does perhaps no other one refrigerator.

The patented "Bohn Syphon" system, for instance, establishes rapid and correct air circulation which contributes to low temperature, freedom from odor mixing and minimum ice consumption.

Eleven thicknesses of wall construction, including the flax-linen insulation keep out the heat and sustain the low temperature.

All food chambers are of one piece, seamless porcelain, with rounded corners, easy to keep clean and the very extreme of sanitation.

The Bohn Syphon, the Bohn Sanitor and the Bohn Leyco are all sold on our "Easy Pay" Plan.

CENTRO Building Destroyed Despite Firemen's Work.

Valley Shipments Large; Fruit is Plentiful.

Slyly Heber Man Denies Embazement Charge.

LOCAL CORRESPONDENCE.

SCHOOL BURNED DOWN. The Centro school-house burned to the ground this morning about 4:30. The department was called, but was unable to put out the blaze, which had already destroyed most of the building.

It is understood that the building was recently insured to cover any loss by the school board. The building had just finished being painted yesterday. It was a complete loss, the place being built of wood and burned very quickly.

It is very probable that the work will be done another school-house very soon.

There has been talk of insurance, but no member of the board was willing to be interviewed today.

Cantaloop shipments from Valley have by far outstripped those from San Joaquin. Last week there were 234 cars of cantaloupes shipped out, while the same year ago there were only 124.

Shipments have surpassed the most optimistic estimate, and the total shipments up to date this year total 6,664 up-to-date.

We thought a few weeks ago that the total shipments would not amount to more than 5,000. It will only take one more month to reach that number.

The total number is 7,522. The present rate of shipping will probably be about 100 cars a day before that figure is reached.

United States Bureau of Maritime Statistics has issued an estimate for the year 1920, which is 8,444 cars, while the shipments to date this year total 6,664.

The preliminary hearing was set for July 19, when it is possible that the hitherto unpublished will be brought to light.

THE NEW.

IN STORES AND HOMES.

NOVELTIES, IDEAS AND PRACTICAL SUGGESTIONS.

By Olive Gray.

Up-to-Date!

The lace bodice extending in a curved line across breast and upper arm and worn over a gump of plisse crepe, the lace of bodice traveling in a scallop along a low waist line. A new note in blouses, this.

The organdie hat in white or colors, with organdie flowers to match, as only trimming.

The bathing suit of gingham—the latest don't-go-near-the-water fad of eastern shores.

Parasols, tall and loafing pillow of crisp pink organdie much beruffled—an armament for the fascinating summer girl.

Now is the time to buy:

One of that "three miles of voile," advertised at lowered price, a dress to go with, if you do not possess one of the silent servants never "giving notice." Sale prices admonish you.

The wardrobe trunk, when you can buy one for less, has many uses as well as travel functions.

The Boston bag, while Boston bagging is good, it is so this week, in several places.

Summer Wardrobing.

Jane's family has foregathered from the four quarters of the globe, all attracted to Los Angeles for stays indefinite—and we all know that means to live. As a consequence the young woman's flowing and Jane has been relegated to the screen porch, not merely to sleep, but to habitate. "It was all right, said Jane, "save for the fact that I have to sleep in the worst room in the house."

It is charged that Mr. Dewey ingratiated himself into the good will of the young woman, and secured her consent, making his home at her residence, 1617 Park avenue.

The specific charge is that last February she gave Dewey a blank check, which he is said to have cashed for \$400, leaving the bill out of the amount to the young man. It is charged that on June 30 he filled out the check, calling for the payment of \$200, and escaped the country.

Just before the check was cashed by Dewey, as she charges, she gave him another check for \$50 to pay for a signal light on his machine. He has been trying ever since to prepay the money on this check. Dewey says that the young woman is trying to get even with him for paying attention to another girl.

SAYS RESCUER DREW MONEY AND KEPT IT.

CINEMA ACTRESS HAS ACTOR ARRESTED ON CHARGES INVOLVING CHECKS.

A. L. Dewey, a cinema actor employed at the Hollywood studio on Santa Monica boulevard, was lodged in the County Jail yesterday by Deputy Sheriff Blasdel on the charge of swindling Miss Bern Nye, also engaged in the silver sheet game.

The beginning of the story dates back to last Thanksgiving Day, when Miss Nye, with an arm and shoulder accident in Elkhorn Park, Mr. Dewey gave first aid to the injured actress and had the young woman removed to a hospital, where she was cared for on account of injuries received in a spill that threw her into a ditch.

It is charged that Mr. Dewey ingratiated himself into the good will of the young woman, and secured her consent, making his home at her residence, 1617 Park avenue.

STEINFELD DECLARIES UNIONISM DONE FOR.

PROMINENT ARIZONA CAPITALIST SAYS LAST STRAW HAS BEEN BROKEN.

(EXCLUSIVE DISPATCH)

LONG BEACH, June 30.—Declaring that the walkout of the union men employed by the Tucson Gas and Electric Company was the "last straw," Albert Steinfield, multi-millionaire mining operator and merchant of Arizona, has arrived at Roanoke, Virginia, for the summer with the intention of settling with the men who have been fighting to devote his entire attention to the Albert Steinfield stores at Tucson, Ray and Nogales.

This has reached the parting of the ways with organized labor, said Mr. Steinfield. "The day before I left the business men unanimously declared for open shop. My stores are all open shop, and will continue to be. We have no grievance against organized labor, but I believe in my right to employ the man I think best fitted for the job, regardless of his affiliation with or lack of association with a union."

"The unions are really to blame for this open-shop declaration. They had a controversy with the light and gas corporation, and it is private, but an agreement was reached and then the unions demanded the discharge of all non-union men. This was refused. Then the men walked out, leaving the city without fire or lights. It was the last straw."

FINED FOR KISSING.

Santa Monica Man Pays Tax, But Denies Charge.

(LOCAL CORRESPONDENT)

SANTA MONICA, June 30.—Sur-veptuous kisses are worth \$18 apiece to the city of Santa Monica, according to a decision made by Justice King this morning, who fined Peter Rubio, 22, that amount for embracing Miss Bebbie Miles of Seventh street.

Miss Miles told the court that she was walking along the street and that Rubio, who had tried to force his attention upon her for some time, kissed her. Rubio denied the charge, but paid the fine.

SANTA ANA LICENSEES (EXCLUSIVE DISPATCH)

SANTA ANA, June 30.—The following marriage licenses were issued here today: William Culp, 37, and Emily Schudler, 35, both of Los Angeles; John Wesley Park, 21, and Anna E. Kile, 20, of Riverside; Elliott W. Bothwick, 49, Walnut Park, and Marian E. Petty, 36, Long Beach; Frank Jerome Schrott, 26, and Anna M. Schrott, 24, of Anaheim; Camillo Velasquez, 37, and Andrea Larios, 19, both of Santa Ana; Eugene T. Estella, 22, and Marie Emma Low, 18, both of Long Beach; G. T. Tournier, 26, Los Angeles, and Helene H. Lafarla, 25, San Francisco.

playable for little ones and easily made by hand. There was the "frog who would awoing go" an upstanding, made-like-a-frog, carrying a clover, a clover, a clover, and others. The shapes come ready cut and the clothes are made in outline stitches, easily traced by anyone.

Fashion's Charting. Basque bodices are long. Jackets are barely hip length. The Gibson sailor is coming back. The popular tonic is never out of style.

Motor wraps feature small roll collars.

Sports coats are cut with kimono sleeves.

Blouses are rather elaborately trimmed.

Beige is a favored color for afternoon wear.

Laces of the valley are used on black hats.

A revival of the Waitau hat is prophesied.

The bathing suit of gingham—the latest don't-go-near-the-water fad of eastern shores.

Parasols, tall and loafing pillow of crisp pink organdie much beruffled—an armament for the fascinating summer girl.
